ANTON BOHACHUK

FULL STACK DEVELOPER

PROFILE

I am **Full Stack Developer** with **2 years of hands-on experience** in web application development. Confident in **Angular** architecture (rxjs, signals, ngxs), backend development with **NestJS** and **PostgreSQL**, and monorepo management using **Nx**. Proficient in modern **JavaScript/TypeScript** stack and **microservice** integration. Strong sense of ownership, collaborative mindset, and a focus on building scalable, maintainable code.

WORK EXPERIENCE

- Coverr** January 2024 - Present
Full Stack Developer
 - Developed and maintained complex **Angular** components using **signals, rxjs, ngxs**.
 - Worked with **NX** monorepo and scalable project structure.
 - Worked with **microservice** backend.
 - Maintained cloud functions and message queues (**Pub/Sub**) on **GCP**.
 - Contributed to **CI/CD** workflows using **GitHub Actions** and **Docker**.
- ArtWizard** October 2024 — December 2024
Full Stack Developer
 - Built web-app using **Next.js** and **Redux Toolkit**.
 - Created backend APIs with **NestJS** and **MongoDB**.
 - Collaborated with designer to integrate **UI Kit**.
- Vibe Barbershop** September 2024
Freelance
 - Independently built business website for a barbershop from scratch.
 - **SSR** with **Next.js**, backend logic with **NestJS** and **PostgreSQL**.
 - Developed custom **admin dashboard**.
 - Worked with **Figma**.
- Binary Studio Academy** May 2023 — August 2023
Student Developer (internship)
 - Learned full stack engineering: **React, Redux Toolkit, Express, WebSocket, Docker, Jest**.
- GroupBWT** October 2022 — February 2023
Intern Developer
 - Worked with frontend development using **Vue.js (Vuetify, Vuex, Vue Router)**.
 - Created **Laravel** backend and **Laravel Nova** admin panel.
 - Used **Jira** and **Confluence** for task tracking and documentation.
